 (Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Amend claim 1 to more precisely define the invention claimed, in particular, to make clear that a divided output signal is input to the phase comparator. Amend claim 2 to make clear that the output of the frequency divider is input to the phase detector. Amend claim 9 to make clear that the mass of a substance in a liquid is determined. Cancel claim 11, since it does not appear to recite a structural limitation but rather is directed solely to an intended use.
